

ART SCIENCE COGNITION: Metaphor Building

Dates: Thursdays

November 09, 2017

November 16, 2017

November 30, 2017

Time: Drop-ins welcomed between 1—4pm

Location: Alzheimer's Association

San Diego & Imperial Chapter

5075 Shoreham Place, Suite 240

San Diego, CA 92122

What: ART SCIENCE COMPLEX has originated and designed exercises using drawing and writing to promote latent ability within the brain.

How: Research validates the idea that metaphorical thinking fosters both neuroplasticity and neurogenesis, the adult brain's ability to quickly adapt to novel information and experiential learning, and the generation of new neurons in the hippocampal region, respectively.

Instructor: Julie Rauer

Bruce Gemmell
